Sandstone HydraPressed Slabs

Abbotsford Concrete's HydraPressed Slabs are made to precision sizes with true edges and top edges chamfered for a neat appearance.

HydraPressed Slabs are hydraulically pressed using an advanced method of producing concrete paving that requires 400 tons of hydraulic pressure, resulting in a cured slab with incredible strength.

Abbotsford Concrete Products' HydraPressed Slabs offer volume production, exacting standards and low cost... a winning combination suitable for any setting.
